DETAILED ACTION

1. Claims 1-22 are allowed.
2. The following is an examiner's statement of reasons for allowance:

The cited art taken either singly or in combination with other prior arts fails to anticipate or fairly suggest the limitations which the Applicant claims in independent claim 1 in a manner which would warrant a rejection under 35 U.S.C. § 102 or 35 U.S.C. § 103, especially when these limitations are considered within the specific combination claimed.

The cited art, U.S. Pat. No. 6,479,758 to Arima et al., discloses a flip-chip package substrate comprising: a plurality of wiring layers forming a stack and a plurality of insulation layers sandwiched between two neighboring wiring layers for isolating the wiring layers such that an insulation layer and a wiring layer stack on top of each other alternately, and a plurality of conductive plugs passing through the insulation layer for connecting the wiring layers electrically. Arima et al., however, fails to anticipate or fairly suggest at least, among others, "at least one inner wiring layer having at least one signal trace, and at least one guard traces and the guard trace being adjacent to the signal trace", as recited in claims 1 and 12.

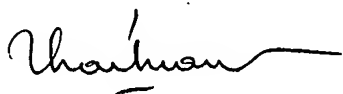

3. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
